PROFILE

Filip Volárik

UX/UI DESIGNER

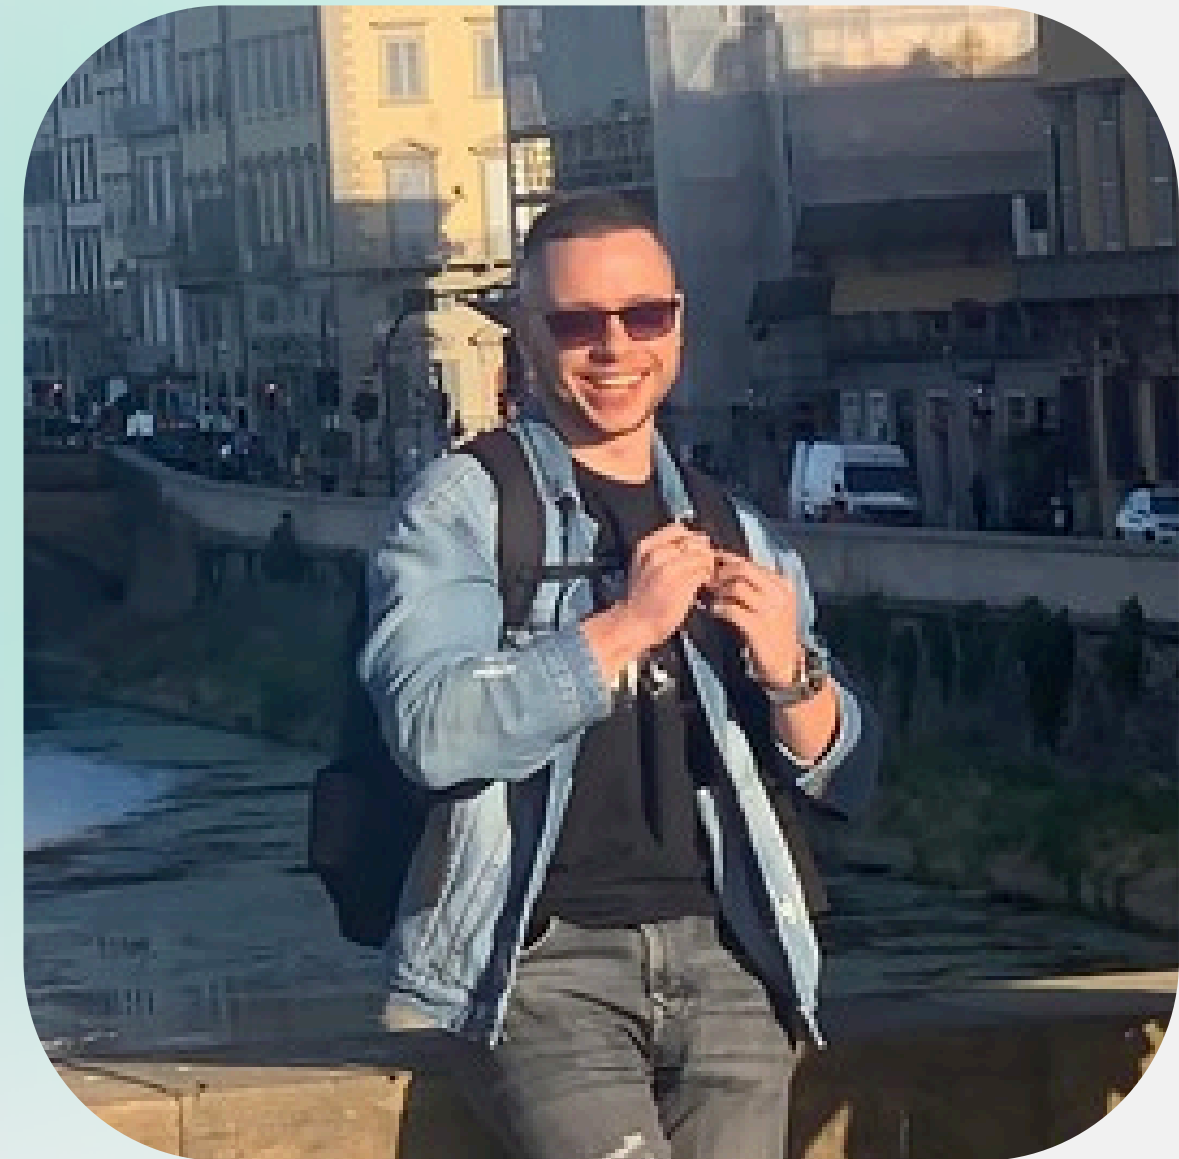

Crafting Engaging Experiences for Mobile Platforms

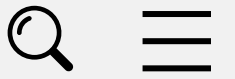

I'm a passionate UX/UI designer with a specialization in mobile application design. I bring four years of hands-on experience and an insatiable drive to innovate and elevate user experiences in the digital realm.

In my journey as a designer, I've cultivated a deep understanding of user behavior, market trends, and design principles to create intuitive, user-centric solutions.

About Me

Introduction

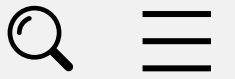

“The name is Volarik, Filip Volarik” Just kidding... although the name is correct but I consider myself a Mission Impossible fan more. I live in Bratislava, but spent my childhood in a village nearby, Bernolákovo.

Where Passion Meets Purpose

From a young age, I found myself captivated by the artistry of design, whether it was sketching out interface concepts for mobile apps. Design, for me, isn't just a profession; it's a way of life. I find design interesting not only within the digital sector, but also in the automotive or real estate.

Bringing Ideas to Life

In every project, I infuse my love for aesthetics with a dedication to functionality. Whether I'm crafting an intuitive user interface or conceptualizing the interior of a space, my goal remains the same: to create experiences that resonate deeply with users.

Experience

7+

YEARS OF EXPERIENCE

More than 7 years of
active self-learning
experience.

30+

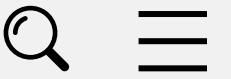

PROJECTS

Accomplished over 30
design projects from
scratch so far.

0

UNHAPPY CUSTOMERS

The goal is to always
satisfy the customer by
any means.

Design and Personal Skills

Fluency in English

Strong communication skills in both written and spoken English, enabling clear and effective collaboration.

Technical Proficiency

Expert in using design and prototyping tool such as Figma.

Project Management

Proven ability to lead cross-functional teams, streamline workflows, and deliver complex projects on time and to specification.

Workflow Design

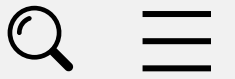

Proven experience designing efficient and intuitive workflows for complex applications.

Collaboration & Communication

Strong interpersonal skills, with the ability to present and discuss design concepts clearly with both technical and non-technical teams.

Attention to Detail

A keen eye for design details, ensuring visual balance, readability, and consistency across all design elements.

Projects

02 App: Part of an agile team, responsible for designing payment operations and user journeys within the app.

FitJam: Health & Fitness startup, head of design and project manager

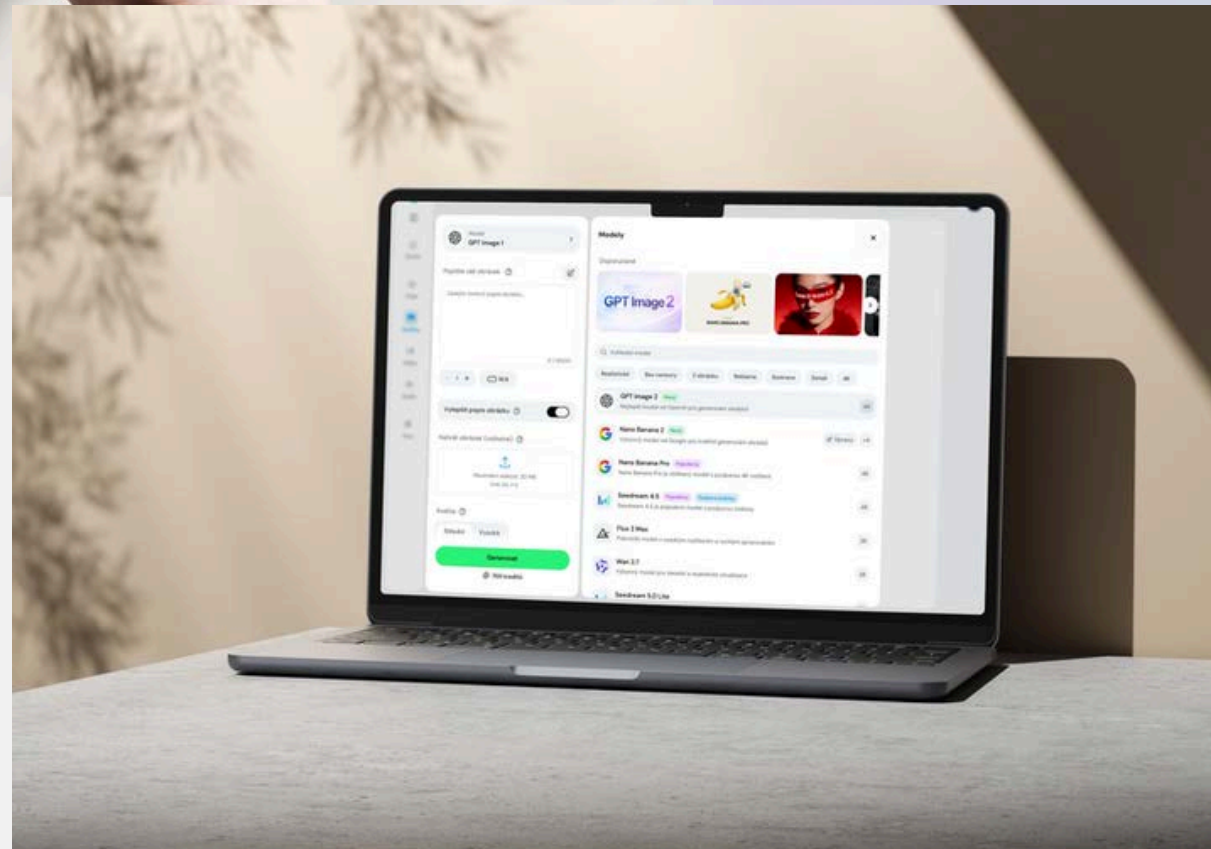

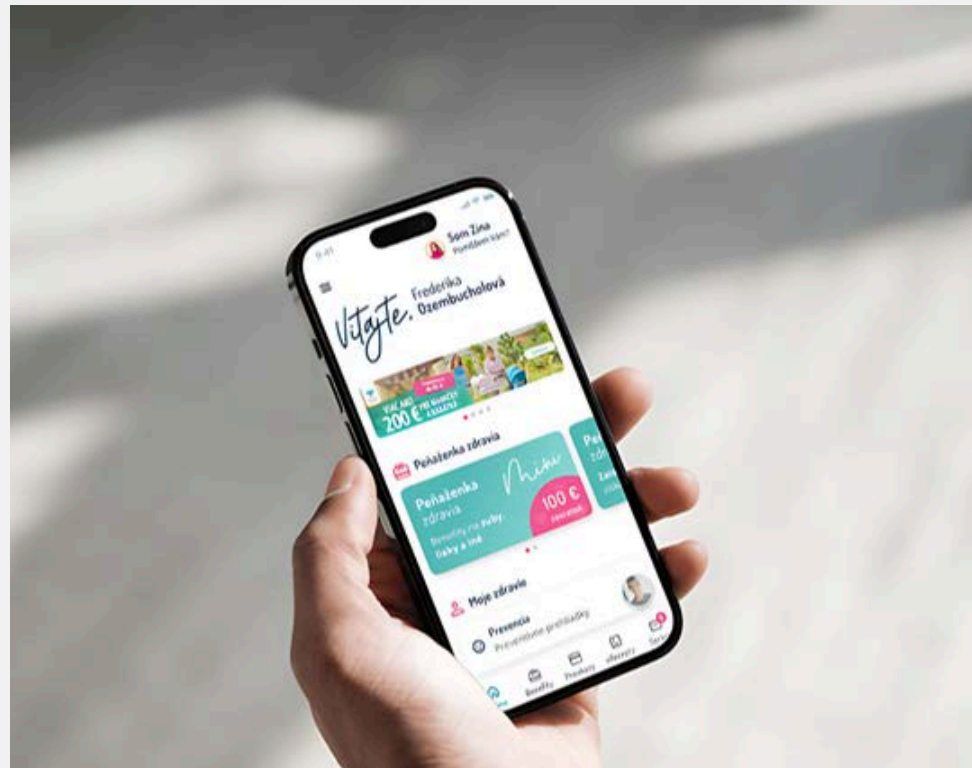

VŠZP Mobile Application: Lead graphic designer, enhancing healthcare service UX/UI.

elidentity App: Simplified citizen ID processes, ensuring user-friendly interactions.

Everbot: Designed the mobile app from scratch and redesigned the desktop web app into a modern and clean UI.

Icona Vista: Elevated real estate browsing experience on desktops.

And of course, many more!

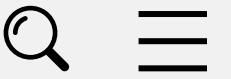

Portfolio

I've developed a unique approach to presenting my portfolio through an app prototype created in Figma. The prototype effectively showcases my work, the projects I've contributed to, my skill set, and aspects of my personal life.
